

evolv^{AI}

A complete family of hearing aids
for every patient

evolv^{AI}

**Exceptional sound.
Complete style line.
Effortlessly everything.**

Evolv AI brings a full line of styles to the world's most innovative hearing aids.

At Starkey, we understand the impact of hearing loss. Which is why we take every step to make hearing effortless. Evolv AI changes the game with our most advanced Starkey Sound™, enhanced connection, and a complete line of styles. When it comes to better hearing innovation, you can expect effortless.

55M

Performing 55 million
automatic adjustments
per hour

Starkey Sound is effortless.

Our always-on, always automatic, and always effortless hearing technology delivers realistic and genuine sound quality in every listening environment without the need to do anything extra. Evolv AI incorporates unprecedented levels of adaptation providing a 40% reduction in noise energy for challenging listening environments compared to previous technology.

The World's smallest 2.4 GHz CIC with integrated sensors

Our Evolv AI CIC is built with integrated sensors and a revolutionary antenna design built directly into the retrieval line for robust wireless performance.

Revolutionary
built-in antenna
design

evolv^{AI}

Discover the world's most innovative hearing technology.

Effortless Intelligence

Our latest technology provides superior sound quality plus advanced features and capabilities

Accessories

Remote Microphone +

₹ 9,900

(Inclusive of all taxes)

Enables easy audio streaming from a variety of audio sources, and one-on-one conversations in noisy environments

TV Streamer

₹ 9,900

(Inclusive of all taxes)

Allows patients to easily stream audio from their TV or other electronic audio source directly to their hearing aids

Remote

₹ 8,900

(Inclusive of all taxes)

Easily control memory and volume, mute hearing aids and turn other special features on and off.

Table Microphone

₹ 27,900

(Inclusive of all taxes)

Make group settings easy with eight built-in microphones that stream the primary speaker's voice directly to your patient's hearing aids.

SHT Standard Charger

₹ 19,000

(Inclusive of all taxes)

The SHT Standard Charger operates as a portable charging station and case for lithium-ion rechargeable hearing aids. Both chargers are equipped with LED lights to indicate charging status for both hearing aids and charger.

SHT Custom Charger

₹ 19,000

(Inclusive of all taxes)

The SHT Custom Charger operates as a portable charging station and case for lithium-ion rechargeable hearing aids. Both chargers are equipped with LED lights to indicate charging status for both hearing aids and charger.

Mini Turbo Charger

₹ 5,900

(Inclusive of all taxes)

In just seven minutes, our pocket-sized charger provides 3.5 hours of power and can completely charge RIC R or BTE R hearing aids up to four times.

CROS Transmitter

₹ 22,500

(Inclusive of all taxes)

Starkey's CROS solution transmits sound wirelessly from a microphone placed on a patient's unaidable ear to a receiver fitted on a patient's better hearing ear. Devices can also be configured as a BiCROS solution for patients who need amplification in their better hearing ear.

*Individual results may vary. Invisibility depends on anatomy of the wearer's ear.

A complete style portfolio makes effortless hearing the expectation.

We're combining our exceptional Starkey Sound with the world's most innovative complete family of hearing technology.

Custom craftsmanship and innovation have led to an effortless hearing experience. Patients now have a complete line of hearing aid options that fit seamlessly into their unique lifestyles. From our smallest to our most powerful, we've cracked the code for our hearing aids to be effortlessly perfect.

IIC

ITC

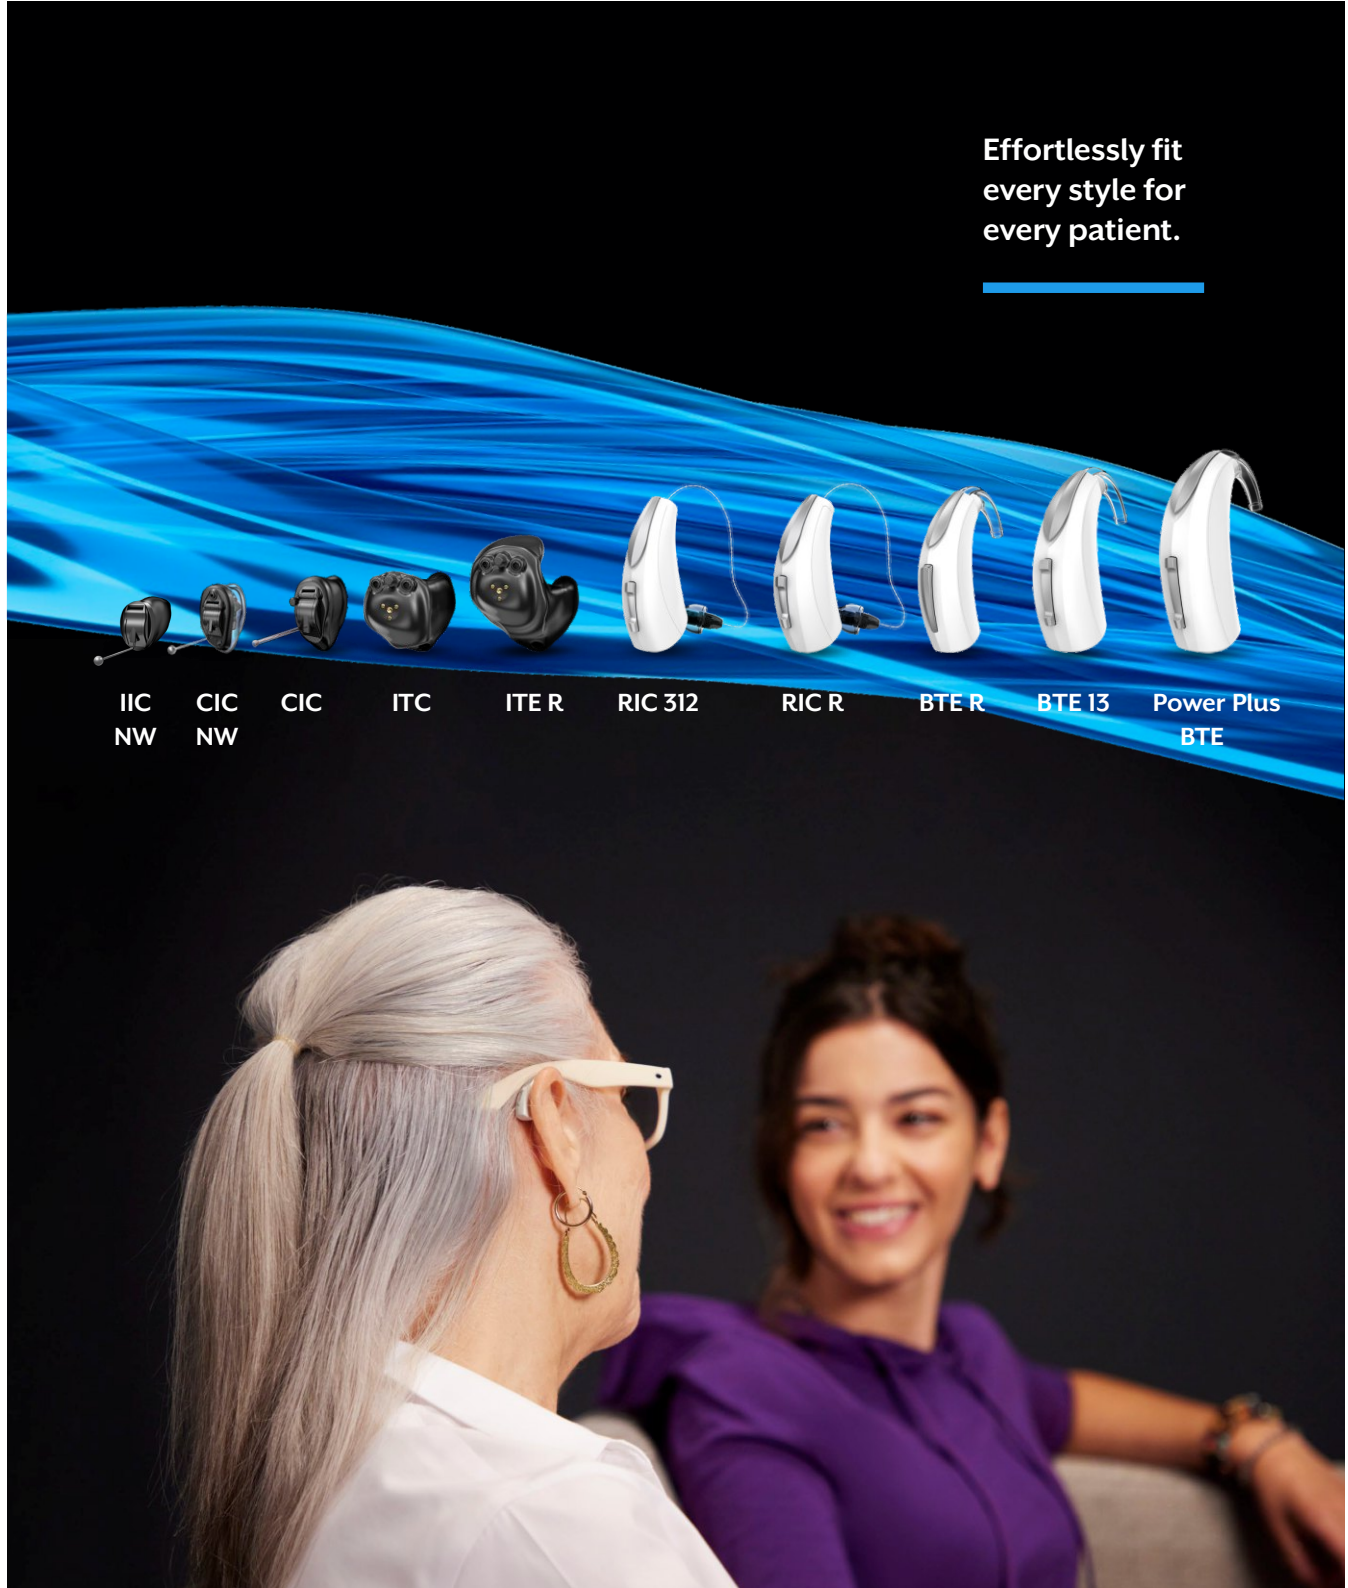

RIC

A range of styles for your patients' specific needs.

Effortlessly fit every style for every patient.

Thrive Hearing Control App

Hearing Performance & Healthable Technology Features:

Available with Evolv AI, the first ever hearing aid with on-board integrated sensors and artificial intelligence

2-Way Audio

Now, your patients can take and end calls directly from their Evolv AI hearing aids instead of their Apple device. Plus, hearing aid microphones pick up and stream their voice directly back to select iPhone and iPad models, allowing your patients to seamlessly talk hands-free.

Edge Mode

Putting AI into every patient's hands with on-demand features like Edge Mode has proven speech audibility advantages. Now enhanced to offer even clearer sound in vehicles.

Voice AI*

Thanks to the power of AI, this always-learning speech enhancement features uses the wearer's iOS smartphone to deliver an unprecedented experience for those with moderate loss of 50 dB HL or greater.

Tap Control

With just a double tap, our hearing aids can be set to active Edge Mode, Thrive Assistant or Start/Stop Audio Stream from 2.4 GHz accessories.

Engagement Tracking

Monitors the health benefits of wearing hearing aids by tracking things like active listening.

TeleHear Remote Programming

Even more flexibility and fine tuning for your patients, wherever they are. You can seamlessly make adjustments virtually to their hearing aids.

Activity Training

Tracks daily steps, measures movement and monitors more vigorous physical activity.

Fall Detection & Alerts

Detects when a hearing aid wearer falls and sends an alert message to selected contacts.

Thrive Assistant

Provides quick answers to questions like, "how do I adjust volume?" or "what's the weather?"

Personalized Memories

Create multiple custom memories including geotagged memories like, "coffee shop" or "home."

Self Check

Provides a quick, convenient way for patients to analyze their hearing aid system's performance.

Reminders

Provides the option to schedule alerts for things like taking medications and other personal tasks.

Remote Control

Patients can change volume and switch memories easily using a tool in the Thrive app.

Find My Hearing Aids

Helps patients easily locate misplaced hearing aids providing a location and a timestamp.

Transcribe

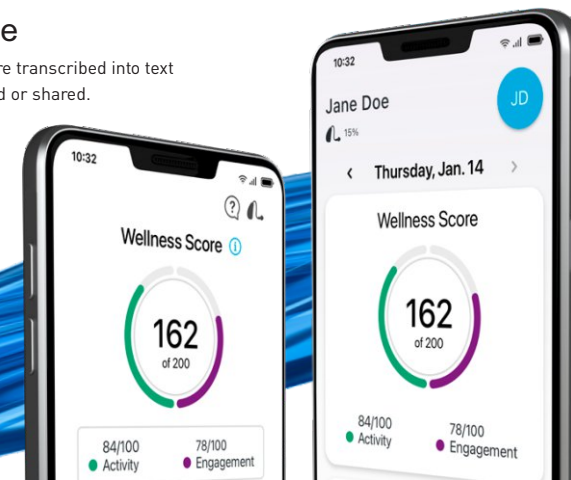

Conversations are transcribed into text that can be saved or shared.

Translate

Patients can communicate with people who speak other languages.

* Requires an iOS device.

Next level sound. Next level everything.

Evolv AI brings a full line of styles to the world's most innovative hearing aids.

Experience Starkey's award-winning, most successful hearing aid line to date. Evolv AI seamlessly connects and adapts with your patients' lives to deliver effortless hearing in even more listening environments. Now featuring enhanced Edge Mode, improved 2-Way Audio, and health monitoring.
